

smd 0603 green led**Product Description**

Green color have yellow-green and true green two type, true green is much brighter than yellow-green. This smd 0603 green led brightness is 300-600mcd, ESD is 2000V. The small size provides more possibilities for PCB design. We also can provide PCBA service for this led. Our factory has large capacity and guarantees high quality for this popular smd led.

Package Description**Package Dimensions:****Recommend Pad Layout****Notes:**

1. All dimensions are in millimeters (inches).
2. Tolerance is $\pm 0.10\text{mm}$ (0.004') unless otherwise specified.

smd 0603 green led Parameter:

PRODUCT PARAMETER

LED Size	1.6*0.8*0.6mm
Color	GREEN
Wavelength	525nm
Forward Voltage	2.8-3.6V
Forward Current	20mA
Luminous Intensity	300-600mcd
Packaging	4000PCS

PRODUCT PARAMETER

1. Chip, use large size regular square chip

2. Epoxy, use low light decay and high stability imported epoxy resin

High brightness smd 0603 green led

LIGHT CONTRAST

Under Normal Light

Under dark Light

Not Conducting

Conducting

For smd 0603 led, we have red, orange, yellow, green, yellow-green, blue and white full colors, welcome to your inquiry!

Production for smd 0603 green led

High brightness factory price smd 0603 green led using the most advanced full ASM solid crystal, wire automatic equipment, automatic sub-BIN taping machines and other fully

automatic equipment; products in the design fully take into account the LED light, electricity, thermal characteristics, the use of imported low-light fade water package , The selection of raw materials used are verified by the reliability of the experiment, the product is more stable, high anti-ESD ability, low light decay, good consistency and so on.

Production Flow

01

Chip bonding station

The most advanced ASM chip bonding machine, using the most famous chip material epileds or epistar, brigelux

02

Wire Bonding

Wire Bonding Station
The most advanced ASM Wire bonding machine, using 99.99% pure gold wire and the brand its Doublink

03

Plastic Irrigation

Plastic irrigation station
Full-automatic plastic irrigation equipment, make sure operation effective and exact

04

Spetrophotometric Station

Full-automatic spectrophotometer equipment, make sure spectrophotomeric exact and reliability

05

Detection test station

A full set of detection test equipment, all led will taking detection test before shipping,make sure the led you received are perfect entirely.

Packaging and Shipping for smd 0603 green led

The package is 4000pcs per anti-static bag, 2 or 10 bags per small box, 4 boxes per carton. We can provide DHL, FedEx, UPS, TNT Express service and so on. Please tell us which shipping method you are prefer for smd 0603 green led.

smd 0603 green led Information and Production Line

Dongguan Zhiding Electronics Technology Co., LTD is a high-tech enterprise specialized in manufacturing, designing and selling high quality LED lighting and LED related products. Zhaoqing Factory has more than 1000 employees, including more than 80 technicians focused on research and development. With an increasing number of orders each year, our business quickly expands to global markets.

We have advanced testing equipment, can be "normal temperature continuous light lifetest", "high temperature and high humidity cycle test", "cold and hot shock cycle test" and "high and low temperature storage test", "high temperature continuous light test", "salt spray test" and reliability test, for all kinds of product reliability test of periodic on a regular basis, provides the high quality for our product quality assurance.

PRODUCTION ENVIRONMENT

FAQ:

Q1. How do you handle customer claims?

A1. We will reply in 24 hours after we get customer claims.

Q2. Are you selling original products? Could you confirm it?

A2. Yes, we can confirm our products are all original.

Q3. If your company can custom products as my required and put my LOGO on?

A3. All of our product are designed and customized as required including color, print, pattern and LOGO.

Q4. Can I have samples to test?

A4. Yes, we are pleased to supply samples to test and check quality, mixed sample order is available.

Q5. How can you ensure your products quality?

A5. We start the quality control from the design stage. We can almost do every step in house and have professional QC and test equipment to ensure the quality.

More details about smd 0603 green led, please feel free to contact us!
